TechMedia 

Editorial Calendar 2025 - 1. half

No.	Publication Date	Closing Date	Editorial Calendar
1	January 21	January 2	Power supplies, converters and batteries SiC-, GaN- and new power technologies Electronics development, -production and production equipment Test & measurement equipment Cables, connectors and cable assemblies PCBs
2	February 11	January 23	Medical and healthcare electronics Displays and display modules Casing, mechatronics, 3D-design and robot technology Additive production, 3D print and printed electronics EMC and ESD Opto electronics, diodes and passive components Trade show: LOPEC 2025, Munich, February 25-27 (D)
3	March 4	February 13	Embedded electronics and IoT Wireless communication and networks Power electronics, IIoT and Industry 4.0 Automation and robot technology AI and VR Sensors, transducers, Big Data and industrial data security Trade show: Embedded World, Nuremberg, March 11-13 (D) Trade show: Hannover Messe, Hannover, March 31 - April 4 (D)
4	April 1	March 13	Cloud vs. Edge Cyber resilience Act (CRA) and cybersecurity Wireless communication and encryption Microprocessors and micro controllers
5	April 22	March 28	Electronics design, development and wireless technologies Subcontractors/EMS, electronics production and boxbuilding Additive production, 3D print and printed electronics PCBs Test and measurement Cables, connectors and cable assemblies EMC and ESD Power supplies, converters and batteries News, trends and general coverage from Embedded World Trade show: PCIM Europe, Nuremberg, May 6-8 (D)
6	May 20	May 1	Micro electronics in power electronics Automation, industrial electronics and robots IIoT, Industry 4.0 and cybersecurity AI and VR Energy harvesting News, trends and general coverage Hannover Messe
7	June 17	May 23	Medical and healthcare electronics Wireless communication Displays and display modules Casing and mechatronics Additive production, 3D print and printed electronics Telecommunication - laser and fiber optics EMC and ESD Opto electronics and passive components

Editorial Calendar 2025 - 2. half

No.	Publication Date	Closing Date	Editorial Calendar
8	August 19	July 31	<p>Medical and healthcare electronics Displays and display modules Aerospace, defense and rad-hard Drones and robots Enclosures and mechatronics EMC, ESD and passive components AI and VR</p> <p>Trade show: Danish Defence and Ministry of Defense, "DALO Industry Days 2025", Copenhagen, August 20-21 (DK)</p>
9	September 9	August 19	<p>Electronics production and development Additive production, 3D printing and printed electronics Box build Print Testing and measurement Connectors, cables and assembly Power supply, converters and batteries Industrial electronics and IIoT Automation, wireless communication and cybersecurity Robot and drone technology Sensors and transducers</p> <p>Trade show: EOT - Electronics of Tomorrow, Herning, September 30 - October 2 (DK) Trade show: hi Tech & Industry Scandinavia, Herning, September 30 - October 2 (DK)</p>
10	October 14	September 25	<p>Subcontracting: The extensive yearly analysis and survey on the Danish electronics subcontracting business Subcontractors/EMS, electronics manufacturing, electronics design and development Box building and mechatronics Additive production/printed electronics Connectors, cables and cable assemblies PCBs Test & measurement Power supplies, converters and batteries</p> <p>Trade show: Digital Tech Summit, Copenhagen, November 5-6 (DK)</p>
11	November 11	October 23	<p>Electronics manufacturing, electronics workbench, supply chain and component logistics IoT, embedded electronics and wireless technologies SiC-, GaN- and new power technologies Electro mechanicals Microprocessors and micro controllers</p> <p>News, trends and general coverage from EOT - Electronics of Tomorrow and hi Tech & Industry Scandinavia Trade show: Productronica, Munich, November 18-21 (D) Trade show: SPS - Smart Production Solutions, Nuremberg, November 25-27 (DE)</p>
12	December 16	November 27	<p>Aerospace, defense and rad-hard Medical electronics Drones and robots AI and VR Power electronics, EMC, ESD and passive components Accelerated test and climate techniques</p> <p>News, trends and general coverage from Productronica</p>

Advertisement Formats and Prices

Format	W x H (mm)	4 colours
1/1 page	258 x 360	3428
1/2 page vertical	127 x 360	2259
1/2 page horizontal	258 x 175	2259
1/4 page	127 x 175	1322
1/3 page	258 x 120	1655
4 cls. x 250 mm	170 x 250	2272
4 cls. x 125 mm	170 x 125	1307
2 cls. x 250 mm	83 x 250	1307
2 cls. x 125 mm	83 x 125	772
Front cover bottom	83 x 75	1187
Front cover top	126 x 36	1040
Bottom page	170 x 10	1252
Spread 1/1	534 x 360	5491
Spread 1/2	534 x 180	3614

All prices in €.

The prices are valid for the period 1 January - 31 December 2025.

Repeat Discount**:

5 insertions	-5%
9 insertions	-10%
12 insertions	-15%

** Turnover/quantity or repeat discounts are achieved regardless which of TechMedia's 13 journal magazines the advertisement/s are placed in. These discounts cannot be combined with other discounts.

Turnover Discount**:

At € 6700	-5%
At € 13400	-10%
At € 20100	-15%
At € 26800	-20%
At € 33500	-25%

Electronic Advertisement Material

General:

Data quantities <10 MB can be emailed to the recipient.

Data quantities >10 MB must be submitted via www.wetransfer.com

We work in the PC environment using Adobe Creative Cloud.

Fonts:

As a starting point, the used fonts are to be submitted; they can be included in a PDF or vectored before submission.

PDF:

PDF's are to be submitted in print quality 200 dpi.

TechMedia A/S is not liable for errors in the submitted PDF material.

Photos:

Photos are to be submitted in print quality 300 dpi in TIFF format (file name.tif) or J-PEG format (file name.jpg). Photos submitted in lower than the requested quality can be used, however TechMedia A/S cannot be held responsible for the quality.

Photos from the internet are usually not of print quality.

Graphics and Logos:

As a starting point, graphics and logos are to be submitted in Illustrator-EPS format (file name.eps) or -AI (file name.ai). Alternatively, material can be submitted in PDF format (file name.pdf), TIFF format (file name.tif) or J-PEG format (file name.jpg).

Logos from the internet are usually not of print quality.

Using web and email addresses in advertisements:

It is possible to have clickable web and email addresses in the ads in the digital issues of *Aktuel Elektronik*.

How to do it:

- Web and email addresses must be text only
- Space must be added between web and email addresses and other text
- Email addresses are to be written in full and include @
- Web addresses are to be written in full and include www.

TechMedia A/S cannot be held responsible for web-links not working correctly.

Contact:

We value good customer communications and are willing to mentor and offer advice within our areas of expertise. Should we on receipt of advertisement material have any doubts or questions regarding the material or quality, we always contact the customer.

For questions regarding advertising material in *Aktuel Elektronik*, please contact Marianne Dieckmann, tel: +45 43 24 26 82 or via e-mail: md@techmedia.dk

General Information

Editorial objective:

The editorial objective is to provide the manufacturing and developmental segments of the electronics industry with news, background and perspectives, as well as product and people news.

Good reasons to choose Aktuel Elektronik:

- The primary task of Aktuel Elektronik is to keep the Danish producing- and developing parts of the electronics industry supplied with relevant news spanning from products news to indepth, technical articles about the latest technologies.
- Aktuel Elektronik is by far the largest electronics publication in the Danish market.
- With 12 editions per year, Aktuel Elektronik has the highest frequency of any Nordic electronics publication.
- Aktuel Elektronik is proudly independent of any union or party.
- On a regular basis Aktuel Elektronik brings complete surveys of the services and equipment in the Danish market.
- Aktuel Elektronik is part of the privately owned company, TechMedia A/S, one of the largest publisher of B2B-publications in the Nordic market.
