Advertisement Material

General:

Data quantities <10 MB can be emailed to the recipient.
Data quantities >10 MB must be submitted via www.wetransfer.com.

We work in the PC environment using Adobe Creative Cloud.

Fonts:

As a starting point, the used fonts are to be submitted; they can be included in a PDF or vectored before submission.

PDF:

PDF's are to be submitted in print quality 300 dpi.
TechMedia A/S is not liable for errors in the submitted PDF material.

Photos:

Photos are to be submitted in print quality 300 dpi in TIFF format (file name.tif) or J-PEG format (file name.jpg).
Photos submitted in lower than the requested quality can be used, however TechMedia A/S cannot be held responsible for the quality.
Photos from the internet are usually not of print quality.

Graphics and Logos:

As a starting point, graphics and logos are to be submitted in Illustrator-EPS format (file name.eps) or -AI (file name.ai). Alternatively, material can be submitted in PDF format (file name.pdf), TIFF format (file name.tif) or J-PEG format (file name.jpg).
Logos from the internet are usually not of print quality.

Using web and email addresses in advertisements:

It is possible to have clickable web and email addresses in the ads in the digital issues of Dansk Kemi.

How to do it:

- Web and email addresses must be text only
- Space must be added between web and email addresses and other text
- Email addresses are to be written in full and include @
- Web addresses are to be written in full and include www.

TechMedia A/S cannot be held responsible for web-links not working correctly.

Contact:

We value good customer communications and are willing to mentor and offer advice within our areas of expertise. Should we on receipt of advertisement material have any doubts or questions regarding the material or quality, we always contact the customer.

For questions regarding advertising in Dansk Kemi, please contact Marianne Dieckmann, tel: +45 43 24 26 82 or via e-mail: md@techmedia.dk

General Information

Editorial objective:

Dansk Kemi is a highly esteemed specialized scientific journal, providing in-depth information and knowledge on chemistry and developments within industry, research and education.

Dansk Kemi also discusses chemistry relating to pharmacy, food industry, biotech and environment. Dansk Kemi is member journal for chemistry engineers with the two societies: The Danish Society Of Engineers – IDA and The Danish Chemical Society.

Good reasons for choosing Dansk Kemi:

- The sole journal on chemistry in Denmark.
- Member journal for chemistry engineers with the two societies: The Danish Society Of Engineers – IDA and The Danish Chemical Society.
- The journal is solely distributed as requested subscription securing the most relevant and dedicated readers.
- The journal is written and produced by chemists for chemists.
- Dansk Kemi is more than 100 years old.
- All articles are written and provided by experts in their fields.
- Dansk Kemi enjoys the highest respect and trustworthiness with the readers, and the highly educated editorial committee additionally secures seal of approval.
